Shut-off cocks

DIN 16 260, DIN 16 262

DIN 16 263, DIN 16 270,

DIN 16 271, DIN 16 272

It is principle appropriate to install a barricade between the pressure measuring instrument and pressure pipe.

Shut-off cocks make it possible to control or exchange a pressure measuring instrument without a breakdown.

For shut-off cocks with a test connection, it is possible to connect an additional test pressure measuring instrument.
